PROFESSIONAL SUMMARY

Java Full Stack Developer with 3.5 years of experience delivering enterprise-grade applications in large-scale environments. Strong expertise in Java, JDBC, Spring Boot, Angular, SQL, and RESTful APIs, with hands-on experience across the full software development lifecycle. Proven ability to debug complex issues, optimize system performance, and implement scalable backend solutions, including batch-based multithreading. Experienced in cloud-based migrations and cross-technology transformations involving Java, Python, and GCP. A proactive team player with strong analytical and problem-solving skills, committed to continuous learning and adapting to emerging technologies to drive impactful business outcomes.

WORK EXPERIENCE

KANTHAMAI TECH PRIVATE LIMITED (FEB 2026 - PRESENT)

Project Details: Archaea - Semantic Search Solution

Responsibilities:

- Developing backend for Archaea solution using python, fastapi to search code base from gitgub repositories.
- Implemented feature where user can enter github repository url and can search through that repo code.
- Created AWS EC2 instance and deployed code on it.
- Collaborating with team-members to understand and resolve issues.

Technologies used:

- Python, FastAPI, sql, html, css, javascript, GIT, AWS, Docker, Microservices

TATA CONSULTANCY SERVICES Ltd (OCT 2022 - JAN 2026)

Project Details: TCSiON ERP Product - Finance & Accounting Solution

Responsibilities:

- Developing and testing java codes for tcSION erp product server side application, ensuring compliance with client specifications and project deadlines and maintaining code versioning using svn.
- Debugging code, analyzing server logs, finding the issues and fix the same,implemented batch based multithreading and improved system performance by 80 %.
- Developing new Angular Screens for migration, enhancement of screens, adding functionality.
- Achieved 100% matching criteria between old and new screen functioning by implementing proper validations & clean code.
- Collaborating with cross-functional teams to analyze requirements and implement efficient solutions and data fixing using sql queries if necessary.
- Creating and modifying REST APIs and testing using postman.
- Introduced Flag Utility to enable or disable screens as per necessity.
- Demonstrated versatility by working both independently and within cross-functional teams, fostering a culture of collaboration and alignment towards achieving shared objectives.

Technologies used:

- Java 1.8, Angular 16, MySQL 5.7, REST APIs, JDBC, Servlet,JSP, JavaScript, HTML, CSS, JSON, XML, JBOSS, microservices, testing

Project Details: Equifax - Banking: Sas to Python Migration

Responsibilities:

- Developed Python modules as per the customer's requirement in the gcp cloud environment.
- Analyzed sas code for migration.
- Connected with customers to understand their issue and resolving them.
- Modifications in the code whenever any changes came and maintained the code versioning on github.
- Optimized sql queries for better performance.
- Integrated Python module with GCP to automatically deploye modules at mentioned instance.

Technologies used:

- Python 3.8, GCP Cloud, SAS Code, SQL, Pandas, Numpy, XLSXWriter, Equifax FusionG, Excel

SKILLS

- Java (Core + Advance), JDBC, Object Oriented Programming(OOPs), Springboot, Hibernate, Servlets and JSP
- Python programming, pandas, xlsxwriter
- Database:** MySQL/SQL Server
- Html, CSS, GitHub/SVN, Angular, JSON, XML, Data structures
- Tools used:** Eclipse, MySQL Workbench, Postman, GitDesktop, PyCharm, VS Code, DevPlus, Jira, SonarQube, Docker

Softskills:

- Quick Learner/Adaptability
- Team Player
- Effective Communication
- Problem Solving
- Analyzing

EDUCATION

Qualification	Institute	Score
BE (Electronics & Telecommunication Engineering)	Dr DY Patil's Ramrao Adik Institute of Technology	CGPA: 8.84
Diploma (Industrial Electronics Engineering)	K J Somaiya Polytechnic	Percentage: 86.5%
SSC	R.K Hindi High School	Percentage: 89.80%

Certifications

- Programming in Java (NIIT)
- Web Application using Servlet & JSP level-1 (NIIT)
- Springboot Crash Course (Udemy)

Accomplishments

- Beyond Performance Awards,Special Initiative Award - for extending effort to get timely delivery milestone.
- Awards for Excellence,Star Team Award - honored for outstanding collaboration and deliverying high-quality complex solution to its tier-1 customers.
- Learning Awards,Elevate Wings Award - continuous upskilling.
- Awards for Excellence,On the Spot (Team) Award - for building business model to represent it to client visits.

Additional Details

- DOB: 14/11/1999
- Nationality: Indian
- Marital Status: Single
- Languages Known: English, Hindi, Marathi
